SmartReception **Quick Guide**

Included in Package

- Gigabyte GB-BXBT-2807
- Logitech HD Pro Webcam C920
  - used for 2-way interaction
- Foscam FI8910W Pan & Tilt IP
  - used to monitor the lobby

Note: If you are self hosting, there will be two webcams in the package. One to be mounted on the lobby TV and the other for the receptionist monitor.

NOT Included in Package

- 50" or larger LCD/LED TV with VESA mount capability
- Wall Mounting bracket for TV

Equipment Installation:

1. Remove the Gigabyte GB-BXBT-2807 from packaging.

2. Plug in power adapter

3. Plug in HDMI cable

4. Plug in network cable

5. Remove Logitech HD Pro Webcam C920 from packaging.

6. Plug into the Gigabyte GB-BXBT-2807

7. Install Gigabyte GB-BXBT-2807 to the back of your TV mounted on the wall.

- The Logitech HD Pro Webcam C920 sits on the top ledge of the TV facing out

Your Gigabyte GB-BXBT-2807 has been configured and is ready to go.

8. Remove Foscam FI8910W Pan & Tilt IP from packaging.

9. Plug in power adapter and Plug in network cable.

10. Mount Foscam FI8910W on the ceiling above the TV in the lobby in an area the will capture as much of the lobby as possible. The foscam informs the receptionist that someone is in the lobby.

Once installation is complete, contact HomeSmart Corporate by emailing helpdesk@HomeSmart.com to schedule the final configuration, including a complete test.
